

Consumer Rebates

Estimated annual value: \$2,300

The Consumer Rebates program is designed to improve product mix and increase sales volumes. It is comprised of three components: limited-time homeowner rebates, bonus consumer categories and personal use rebates for the contractor. The best part? **All of these are 100 percent factory funded with no contractor contribution.**

With competitive rebates of **up to \$500*** on a new heating and cooling system, contractors will be able to attract new customers, ensure that homeowners benefit from the value of buying our brand and provide homeowners with a system that they truly desire.

Limited-time homeowner rebates are designed to help contractors close sales at the kitchen table when they need it the most. Distributors can pick any six months during the calendar year.

Personal use rebates serve to encourage distributor and contractor partners to purchase and install YORK residential equipment. This is an excellent opportunity to establish strong credibility with the consumer from the start. Personal experience with YORK equipment allows contractors to provide testimonials and superior knowledge to the homeowner.

Pro tip: Contractors can stack the value of consumer rebates with additional rebates available in their local market i.e. utility rebates, state energy incentives, federal tax credits and others. Promoting the 'total savings' to the homeowner in both marketing and sales materials can make the difference between the homeowner choosing to repair or replace.

Contractors can provide year-long, higher-value rebates to those homeowners that serve our communities. Homeowners, including retirees, that worked in the following categories can take advantage of year-long increased rebates on qualifying products:

Military and veteran personnel

Educators

First responders

Homeowners residing in communities affected by emergencies or natural disasters

* Rebate value is based on high-efficiency air conditioner unit and premium furnace installation combination. Rebates are for any homeowner with a system 15.2 SEER2 and above.

Qualifying Products and Rebate Schedule

Base Rebate column reflects the base homeowner rebate. Bonus Consumer Rebate column reflects the total rebate value for bonus consumer categories comprised of military and veteran personnel, first responders, educators, nurses, and homeowners residing in communities affected by natural disasters.

NEW A2L Products to be added as released.
